

PREMIUM SPORTS PERFORMANCE COLLECTION

EXCLUSIVE TO

Sleepy's
The Mattress Experts

Support in any mattress is paramount to ensure your body recovers from the rigours of your day.

Sleepy's is the only retailer with a mattress range tested and endorsed by the Chiropractors' Association of Australia.

sleepys.com.au

Across the range, the different combinations of Intense™ fabric, SomniGel Diamond and graphene-infused memory foam help to moderate body temperature and relieve muscular pressure to assist in a more effective, deeper sleep.

The Transformation models also have the addition of gel-infused memory foam for unparalleled comfort and support.

You'll wake feeling rejuvenated, rested and repaired ready to take on the next challenge.

The human body is one big electric field which is continually recharging by connecting with or rubbing against other materials. Throughout the course of a day, these voltages can reach as high as 30,000 volts!

Scientifically proven, the Intense™ fabric allows a deeper and more relaxed sleep by freeing the body of static tension. The fabric contains a carbon fibre thread which captures the electrons in your body and releases them into the airflow of the mattress - tension literally flows from your body. Sleep studies have shown that when your sleep is more relaxed, you sleep better and actually need less sleep. Studies show an average of 21 minutes less sleep was required by sleepers on Intense™ fabric.

That equates to an extra night of sleep each month!

The Sports Performance Revelation Contour and Deluxe mattresses feature the chiropractic spring system with 5 zone support to cradle the hip and shoulder for spinal alignment. SomniGel transfers heat away from your body, providing a more restful sleep. The Sports Performance Collection works as hard as you do to ensure that you sleep healthy.

The Sports Performance Transformation Deluxe and Luxury mattresses, as well as containing a gel layer to assist with temperature management also features an Australian Made Pocket Coil Spring System. The pocket springs are made in Australia using Australia's own OneSteel wire. This 5 zone system contours to your body to provide a new level of comfort.
