THE SPINE RELATIONSHIP

The Australian Chiropractors Association (ACA) recognise the importance of the relationship between your spine and your health. Each mattress in our Chiropractic Collection is constructed using a unique combination of comfort foam layers and spring systems, to support the resting spine and encourage a deep sleep. Sleepy's are the only mattress retailer with a collection of mattresses tested and endorsed by the ACA, for a night of rest and rejuvenation.

SUPPORT TECHNOLOGY

Featuring an amazing support system, SleepMaker's 5 zoned Australian Made Active Sense pocket springs provide a supportive surface for your spine as you sleep. The pocket spring system minimises partner disturbance across the mattress as each spring responds independently to movement for the shoulders, hips and back. The ACA Emerge Collection is Australian Made using Australian wire from OneSteel for high quality comfort, support and durability.

COMFORT SYSTEM

Developed by SleepMaker the climatex quilt sleep surface uses two or more layers of Dream Foam with high loft fibre in between, for breathability and comfort. The ACA Emerge features temperature regulating gel-infused visco to help maintain neutral body temperature as you sleep, and a foam box for edge-to-edge support.
